

WE SEE  
**HOPE**

## WE SEE **HOPE**. DO YOU?

In the slums, streets and disadvantaged villages of Southern and Eastern Africa, devastating poverty threatens to rob many children of their future. But we see hope in their extraordinary resilience, tenacity and human spirit. We provide the opportunities they need to build better futures for themselves, and enable local communities to support them for the long term.

Together with our local project partners, we enable communities to support and sustain the orphaned and isolated children in their midst.

## WE SUPPORT...

- RESTORE** Rehabilitating and reintegrating isolated children into a caring community.
- PROTECT** Mobilising communities to safeguard children and uphold their rights.
- EDUCATE** Enabling impoverished children to access education and opportunity.
- EQUIP** Training young people in skills and enterprise for sustainable lives.

## AND SUSTAIN...

Through grassroots savings and loans groups, our Village Investors Programme (VIP) economically enables communities to support vulnerable children for the long term.

## OUR REACH

Currently we are proud to be working with 26 project partners, in 222 communities across 6 countries, reaching almost 60,000 vulnerable children in Southern and Eastern Africa.

Our approach is partnership-based. We work side by side with talented and entrepreneurial African project partners. They bring cultural understanding and local networks, we bring replicable programmes and technical skills. And, by involving and empowering communities, together we make sure that our work is sustainable and reaches the greatest number of isolated children, like Heidi and Moses.

## WE SEE **HOPE** IN HEIDI AND ROSE

Ten year old Heidi\* was found lying by the side of the road, hungry, exhausted and frightened. She had run away from an abusive home, but was picked up by our project partner in Malawi, and cared for by a community volunteer named Rose. Heidi joined our local Children's Corner where she received counselling and support, gained confidence and made friends.

Rose\* is a member of our Village Investors Programme (VIP) which enables those looking after vulnerable children to pool their small resources and make business loans to each other. She was already looking after three grandchildren, but thanks to the businesses she started through her VIP group, she significantly increased her income and was able to formally adopt Heidi. Heidi is flourishing in Rose's care.

## WE SEE **HOPE** IN MOSES

Moses\* became an orphan when he was very small. He was nervous and withdrawn and suffered from a speech impairment. His grandmother, Hazel, who looks after him, couldn't afford to send him to a private pre-school.

But our project partner in Zimbabwe recognised that Moses was vulnerable and isolated, and invited him to join one of our Early Childhood Development centres, which are like pre-schools, free of charge. He received a free uniform, attends daily classes and is given a hot meal every day too. Moses is proud that he can now write his own name. His confidence has increased and he rarely stammers anymore. He has lots of friends and enjoys going to school, which makes his grandmother very happy.

\*All names, and Moses' photo, have been changed to maintain confidentiality.

**£10** can enable a child in Uganda to learn about their rights and how to protect them.

**£50** can buy a goat for an orphan in Tanzania, providing milk and baby goats to sell on.

**£100** can establish a community food garden in Malawi.

**£200** can buy a sewing machine and materials for a trainee tailor in Zimbabwe.

## JOIN OUR JOURNEY

### PARTNER WITH HOPE

We are so proud of our growing, global network of companies, schools, churches and individuals, who are using their skills, talents and passions in innovative and exciting ways to help us make a significant, lasting difference. We come to you with our hands full; get in touch to find out more.
